

Appeal to DonNTU Alumni

Dear friends,

The idea to unite Alma-Mater alumni of different years and generations is a tradition peculiar to many universities of the world. The festivities devoted to the 90th anniversary of Donetsk National Technical University (previously Donetsk Polytechnic Institute) urged on the establishment of the **DonNTU Alumni Association**.

During these years we trained more than 200 thousand engineers the University has a right to be proud of. The University enjoys its authority in Europe and all over the world.

The goal of the Association is to create the communication system, help the alumni of different years and generations to get together as there is always something to be remembered. Your experience and knowledge is the invaluable contribution necessary to train modern engineers, improve academic process and facilitate Alma-Mater's progressive development.

Our common task is to inherit and develop the achievements of our predecessors, preserve the traditions and move to the future!

This, no doubt, helps DonNTU to occupy the deserved position among the leading universities of Ukraine.

The DonNTU Alumni Association wishes all of you strong health, successful and fruitful work and invites you to reunions at Alma-Mater!

The Internet site **of the Association** - alumni.donntu.edu.ua

Faithfully,
Rector

A.A. Minaev
